

PRESS RELEASE

Nanoscale Powders LLC Appoints Technical Advisor: Dr. Jon Siddall

Boston, MA | May 1, 2016

Nanoscale Powders LLC ("NSP"), the Boston-based producer of specialty metal powders, is pleased to announce that Dr. Jon Siddall has joined its Technical Advisory Board. NSP is currently scaling up its patented process to produce specialty metals, including titanium and titanium alloys for aerospace, medical, and industrial markets, as well as hafnium metal.

Dr. Siddall is a Technical Fellow at Cabot Corporation and previously held leadership roles in process engineering at Dow Chemical Corporation. He has deep expertise in chemical engineering and particularly in scaling up chemical manufacturing processes. Jon earned his Ph.D in chemical engineering from Purdue University and has taught chemical engineering courses at the Massachusetts Institute of Technology and Tufts University.

Andrew Matheson, President of NSP, stated, "We are thrilled Jon has agreed to join our Technical Advisory Board. As an expert in engineering process scale-up, Jon will be invaluable helping NSP grow from our current pilot plant facility in York, PA to our new site in Fitchburg, MA."
